All-in-one video bars
for wireless conferencing

**The ultimate collaboration
experience in just one click**

BARCO

Love meeting

All-in-one video bar for engaging, effortless hybrid meetings

Open your laptop to start a meeting and connect team members in the office with remote participants in less than 7 seconds. Enjoy sharp views, crystal-clear audio and easy, natural communication between remote and onsite meeting attendees, ensuring everyone feels truly seen and heard. No cables, no hassle. With the ClickShare all-in-one video bars for easy, wireless conferencing.

The ClickShare video bars enable engaging, effortless collaboration in hybrid meeting rooms with any videoconferencing platform. For IT Managers, these carbon-neutral video bars will guarantee simplified installation, unparalleled flexibility and compatibility.

Empowers you

Ensure crystal-clear, natural communication between meeting participants joining from various locations thanks to stereo speakers, acoustic echo cancellation and background noise cancellation.

Display content and remote participants side by side at all times, on one or two screens, to enable a more collaborative and inclusive experience.

Offer a sharp, extensive view of the meeting room and its onsite participants thanks to the 4K camera featuring a 120° FOV and multiple framing options (group framing, speaker framing and composition view).

In-depth collaboration and high engagement are guaranteed thanks to a range of interactive features: touchback, blackboarding and annotation.

Built around you

Guaranteed compatibility
The ClickShare video bars flawlessly work with all major videoconferencing platforms.

Unparalleled flexibility and ease of use. Turn any meeting space into a ClickShare room with our all-in-one video bar with wireless conferencing capabilities built in.

Guest-friendly. Guests can easily share content with the ClickShare Button.
