

Jabra & LG

Connect and collaborate easily
with Jabra and LG solutions

Jabra GN

GN Making Life Sound Better
FOR 150 YEARS

In cooperation with:

Jabra & LG

Powerful collaboration solutions that connect people

Today's workforce is on the go and may be in person, socially spaced or meeting virtually. The need to connect and collaborate easily at a moment's notice is vital. With LG's displays connected to turnkey conferencing solutions from Jabra you can meet with teams anytime.

Jabra PanaCast and Speak Series

Traditional video conferencing cameras often do not provide the full video picture. With Jabra PanaCast, the world's first intelligent 180 degree panoramic-4K video solutions, you'll be confident your teams can connect and collaborate instantly, with whatever platform they're using.

The Jabra Speak Series speakerphones deliver crystal clear communication in any meeting setting of any size, whether in-person or virtual.

LG Electronics Business Solutions

LG Electronics Business Solutions offers professional solutions in information display, system air conditioning, lighting and energy. As a leader in B2B innovation, LG Electronics Business Solutions aims to provide a total solution encompassing consultancy, installation, maintenance and support in collaboration with its professional business partners.

Businesses can rely on LG Digital Signage for superior display quality, flexible design, easy to use features and have competitive total cost ownership (TCO) as a total solution from installation, customization, use and maintenance. Vivid screens, reliability and easy use enhance work environment and make remote work effortless. Staff members can write, create, edit and share data conveniently with the help of LG products.

Create an instant, on demand office collaboration communication center with Jabra PanaCast video conferencing solutions, Jabra Speak speakerphones and LG displays.
