

One

SONOS

**The smart speaker
for room filling sound.**

**Play and control your music,
hands-free. Just ask.**

Sonos One blends great sound with Amazon Alexa – the easy-to-use voice service – for hands-free control of your music and more. Use your voice to play songs while you cook. Tell Alexa to turn the volume up. You can even request a lullaby, out loud, when you're tucking in the kids.

Music and much more

Ask Alexa to check the news and traffic, set a timer, manage smart devices and other helpful skills using a single Sonos speaker. *Sonos One does not support Alexa voice calling.

Multi room listening

Sonos One wirelessly connects to Sonos speakers in additional rooms, allowing you to expand your home sound system when you're ready.

Superior Sound

Built on the mini-but-mighty blueprints of PLAY:1, Sonos One is backed by a pair of Class-D amplifiers and custom-built drivers, meticulously tuned to the speaker's unique acoustic architecture.

Tech Specs

2x Class-D digital amplifiers
1x tweeter
1x mid-woofer
1x 10/100Mbps Ethernet port
1/4 inch (6.35mm) / 20-threaded mount
